

NOURISHED BY NATURE

Resting at the ocean's edge, with majestic snow-capped mountains rising to the north, Vancouver embodies contemporary Canada. This cosmopolitan West Coast city is home to many diverse cultures and traditions, all of which enhance its casual urban flavour, while nature's beauty, from towering pines to bracing sea breezes, is always waiting at your doorstep.

Rejuvenate and replenish the spirit at the world-class Fairmont Spa, rated Five-Star by Forbes Travel Guide and one of the 'Best Spas in the World' by Condé Nast Traveler readers. It is our own little haven.

A holistic self-care escape, tailored specifically to each guest's lifestyle, this serene oasis is a welcome retreat where countless hours can be spent in the sauna, massage chair or indulging in a facial treatment.

Included in this city escape are: nine treatment rooms, including a couples suite with a Japanese-style deep-seated soaker tub, steam rooms, a fitness centre and a movement studio, two private lounges with fireplaces and a private lounge reserved for men that features a club-like décor and wall mounted television. French doors open to a private outdoor landscaped terrace with jacuzzi, dry cedar sauna, loungers and fire pits.

SELECTING YOUR TREATMENT

We have created a simple system to help guide you to selecting an experience that creates the optimum benefit for you. We want you to say “that’s just what I needed” after every treatment you experience. Each treatment has been categorized as Relieve, Restore or Result. In addition, the benefit of each treatment is briefly described to help you decide and achieve the wealth of health.

RELIEVE treatments provide simple relief from everyday pressures. They are a great pick-me-up, designed to help with relaxation, calming or even skin rehydration.

RESTORE treatments focus on recovery from things like stress, travel, over-indulgence or hectic lifestyles. They are rebalancing in nature, with some resulting in more radiant skin.

RESULT experiences are more active and help with things like detoxification, deep tension release or anti-aging. They are therapeutic and some are assisted with technology.

SPA RITUAL

The Fairmont Spa Ritual is a series of wellness therapies, including the steam inhalation room, Finnish-style sauna, soothing mineral bath and quiet relaxation. This experience is recommended prior to any spa treatment to prepare the body for total relaxation and nourishment. The Spa Ritual is complimentary with every spa experience.

For maximum benefit, we suggest:

- 5 minutes in the dry cedar sauna
- 5 minutes in the steam inhalation room
- 10 minutes in the mineral bath
- 10 minutes rest in our soothing lounge

SIGNATURE BODY EXPERIENCES

These experiences are designed to connect body and spirit in keeping in harmony with nature's essential elements: earth, air, fire and water. Proper balance of these elements in nature and ourselves creates our energy. At Fairmont Spa, we have created experiences that help us connect with our energy, inspired by the combination of natural ingredients and professional technique. These experiences are developed to represent each of these elements and the fundamentals of Fairmont Spa.
