

# SELECTING YOUR TREATMENT

We have designed a simple system to help you select the experience that will provide the greatest benefit for you. We want you to say “that’s just what I needed” after every treatment. Each treatment has been categorized as Relieve, Restore or Result. In addition, the benefit of each treatment is briefly described to help you decide and achieve the wealth of health.

**RELIEVE** treatments provide simple relief from everyday pressures. They are a great pick-me-up, designed to help with relaxation, calming or even skin rehydration.

**RESTORE** treatments focus on recovery from things like stress, travel, over-indulgence or hectic lifestyles. They are rebalancing in nature, with some resulting in more radiant skin.

**RESULT** experiences are more active and help with things like detoxification, deep tension release or anti-aging. They are therapeutic and some are assisted with technology.
